

# JUNE 9-10

# RAIN GARDENS

ADVANCED MASTER GARDENER TRAINING PROGRAM

Join us to learn about rain gardens and how they can positively impact our environment. On June 9 from 9:00-10:00 am, we will meet at Valparaiso University to tour five rain gardens. The director of grounds and the designer from Lake Shore will join us to answer questions and give us in depth information about Valparaiso University's stormwater management system.

\*Carpooling is encouraged.

On June 10 from 9:00-12:00 pm, we will meet at Shirley Heinze Meadowbrook location for in-class instruction, and hands-on planting. Bring gloves, hat, shovel, rake, and sunscreen. Snacks & water provided.

Both days are free and open to **15** Master Gardeners. First come first serve. Register today!
